

The Early Childhood Landscape in INDIANA

OVERVIEW

Learning is a continuum that begins from our first day in the world, not just the first day of school. As we begin to understand how the opportunities and environments early in life impact long-term learning and life outcomes, our systems of education have begun to gradually encompass children of younger ages. Because early childhood learning is largely undefined and decentralized, this packet is meant to serve as a compilation of the various statistics, data, and research available. While by no means comprehensive, we hope it provides a foundational understanding of the current landscape of early learning in your state.

STATE DEMOGRAPHICS

Early childhood initiatives are often crafted to support specific populations within a state—such as infants, children from low-income families, and English language learners—which is why it is important to first understand your state’s demographics.

Questions To Consider

How many young children are in my state?

How does this impact the scale of policies?

What is the economic status of families with young children?

Are there unique cultural needs for young children in my state?

Maternal and Child Health Grant

The federal government allocates the Title V Maternal and Child Health (MCH) Block Grant to states. **Indiana** provides additional funding to the MCH program (as shown below).

The state has identified eight national performance measures to focus on:

- **Low-Risk Cesarean Delivery**
- **Risk-Appropriate Perinatal Care**
- **Breastfeeding**
- **Injury Hospitalization**
- **Physical Activity**
- **Medical Home**
- **Transition (Children with Special Needs)**
- **Smoking**

INFANT AND TODDLER SUPPORT

Infants and toddlers develop and learn at exponential rates as they explore and engage with the environments and adults around them. In order to support their **health and development**, pregnant women, infants and toddlers, and parents need access to information and services.

Questions To Consider

Are women and children receiving health care services before and after birth?

Are families prepared for and educated about the needs of young children?

What areas of maternal and child health is my state focusing on?

Paid Family Leave

Indiana does not have a statewide paid family leave policy.

States with Paid Family Leave Policies

State	First Year	# Weeks	Benefit (% Income)
CA	2004	6	Up to 70%
DC	2020	8	Up to 90%
NJ	2009	6	Up to 66%
NY	2018	8	Up to 50%
RI	2014	4	Up to 60%
WA	2020	12	Up to 90%

Home Visiting

Home visiting is a type of service targeted to expectant parents and parents with children ages 0-5 to support healthy child development. Though models and programs vary, home visits typically allow trained experts to provide services, share best practices, and connect families to other resources all within the home setting.

INFANT AND TODDLER SUPPORT

Questions To Consider

*What does paid family leave look like across the country?
Is that conversation happening in my state?*

*Is my state funding a significant percentage of home visits?
Were home visits an MCH priority for my state?*

What models for home visiting is my state utilizing? How are different models used to support families' unique needs?

THREE- AND FOUR-YEAR-OLDS

At ages three- and four, children may be eligible to enroll in pre-Kindergarten, or “pre-K,” programs, both private and public. Pre-K programs are not compulsory, and families may elect to continue any arrangement of their choice.

Questions To Consider

How many children are attending pre-K, public or private?

Are certain populations more likely to attend pre-K?

What percentage of children are enrolled in pre-K due to public support?

How expensive is child care for 4-year-olds?

THREE- AND FOUR-YEAR-OLDS

As states begin to develop and fund pre-Kindergarten program, eligibility and quality requirements have also been adopted.

Questions To Consider

Does my state support pre-K enrollment? If so, for which children?

What are the funding sources for pre-K?

What requirements must providers meet in order to be eligible for the state pre-K program?

Quality Ratings of Child Care Programs

In recent years, many states have designed Quality Ratings and Improvement Systems (QRIS) to evaluate child care providers. The QRIS rating is often a reflection of various measures such as teacher-child interactions, classroom environment, family engagement, and staff educational attainment. Often voluntary, QRIS systems are meant to help improve the quality of child care providers and help families choose the right provider for their children.

Child Care Providers By QRIS Level

THREE- AND FOUR-YEAR-OLDS

Questions To Consider
Are pre-K standards aligned with goals of the K-12 system?

Does my state require pre-K teachers to have a certain degree? If so, what?

Has my state developed a system to assess the quality of pre-K and child care providers? Is participation mandatory for state pre-K programs?

EDUCATORS	Early Childhood Education License Required for Kindergarten Teachers ³	No
	Science of Reading Test Required for Elementary Teachers ⁶	Indiana requires elementary candidates to pass the elementary education generalist CORE assessment, which includes the equivalent of a stand alone science of reading test and addresses the five components of scientific reading instruction: phonemic awareness, phonics, fluency, vocabulary and comprehension.
	Teacher-to-Student Ratio Requirement ²	Not specified in statute, rules or regulations.

FIVE- TO EIGHT-YEAR-OLDS

At age five, children are eligible to begin kindergarten—generally considered the start to their formal education. In these early grades, there is a strong focus on learning to read due to research indicating that 3rd-grade literacy is crucial for success in school and life.

Questions To Consider

Are districts required to offer full-day kindergarten?

At what age are children eligible to attend school? At what age is attendance compulsory?

How are children assessed in grades K-3? What are assessment results used for?
